AUSTRALIA'S ULTIMATE RANGE OF CONTRACTORS TOOLS

Cemtool MASTERFINISH Easymix

HEAD OFFICE
E: sales@masterfinish.com.au
P: 02 96379011

Welcome

Welcome to the A.G. Pulie catalogue. We would like to invite you to browse our catalogue whereby you can find all the world's leading brands in concreting and associated trades, tools and equipment. With decades of experience, you'll find we are the experts in the trade. Please feel free to contact us for any enquiries or for your nearest outlet.

Quality

The management and staff of A.G. Pulie are committed to the best possible professional practice and providing the highest quality services to our clients.

It is our pleasure to introduce a great range of quality products that A.G. Pulie has sourced from Australia and overseas. We have taken the time to listen to our customer's needs and source only the best products for the job.

Technology

A.G. Pulie's research and development team are constantly looking at ways to best serve and supply our customers.

Whether it's an ergonomically designed handle or a light weight material, it's the attention to detail that makes our products standout from the rest. Ultimately this makes life easier for our customers.

Reliability

What is reliability?
How do we measure it?

1. Consistency
2. Performance
3. Trustworthy
4. Availability
5. Quality

Reliability goals are an essential part in the growth of A.G. Pulie.

Integrity

We behave ethically, are honest and fair with each other and our customers, take responsibility for all our actions and acknowledge that as an organisation we have moral obligations as well as commercial ones.

Albert Pulie
Managing Director

Handtools — pages 04 - 43

Concrete	pointed trowels, coves, bullfloats, screeds, rakes, floats
Brick	brick trowels, brushes...
Render & Plaster	trowels, hawks...
Tile	trowels, spreaders...
General	sprayers, scrapers...
Specialty	texture rakes, bump cutters, asphalt, shovels

Brick Tools — pages 44 - 53

Clamps	internal & external, ironers, jointers, rakers
Builders Line	line pins, dutch pins, line blocks, builders line, brick tapes, trestles

HANDTOOLS
SECTION 1

POINTED TROWELS

Used for trowelling concrete floors or similar work. The curve of the blade end allows for the reduction of blade end marking. The moulded plastic handle is designed for ease of grip and operator comfort.

STEEL FLOATS

Used to 'rub up' a concrete floor prior to steel trowelling, to work in coloured dry shake or create a 'cove' or 'stipple' finish. They produce a textured finish smoother than a wood float, which suits outdoor paving applications. The floats feature a long-wearing robust steel blade that is turned up all round.

209

804

824

803

COVING TROWELS

Used to form a cove where a wall and floor meet. The 201 coving has a traditional use in 'rubbing up' the setting concrete prior to steel trowelling. If the concrete is left with the finish created by the coving trowel, i.e. a more textured finish than a steel trowelled finish, this is known as a coving finish or 'stipple' finish.

201

Coving Trowels

Code	Description	Width	Radius	Height	Pack Qty	Barcode
201	Carbon Steel Coving Trowel	150mm	25mm	70mm	6	9318428112016

207	Carbon Steel Coving Trowel	190mm	75mm	90mm	6	9318428112078

203

MARGIN TOOLS

The 775 and 776 margin tools have a fixed margin of 100 and 150.
The 777 margin tool has a grooving bit that adjusts to the desired width of margin between 70-160mm.

207

Margin Tools

Code	Description	Width	Margin	Barcode
775	Stainless Steel Fixed Margin Tool	140mm	100mm	9318428147759

777

CONCRETE EDGERS

Used to trowel a smooth finish to slab edges and produce a smooth face margin to textured or wood float finished external paving. The range encompasses a variety of edge radii and blade widths to suit an extensive range of applications. The blades are formed from carbon and stainless steel.

413

V Jointers

Used to form 'dummy' joints in concrete paving. The joint in the concrete reduces the thickness of the paving. If cracking occurs, the crack should be at the line of the 'dummy' joint. The joint should be 1/5 of the slab thickness.

The tools are formed from long-wearing steel and have robust, comfortable handles.

V Jointers

Marble Sheen Trowels

Originally developed for use on marble sheen finishing in swimming pools.
The blade has flex due to a short support rib (see tool No. 120A, 121A, 122A and 126A).

A further development from this is a similar trowel with a longer rib for greater rigidity in the blade (see the 'S' series).

127

WALKING TROWELS

Trowel concrete floors from a standing position. The tubular connection pivots freely to allow the changing angle between the blade and handle to occur. The square end blade allows trowelling up against a wall.

Used in conjunction with the telescopic handle 1076 or clip handle 588. **See pages 33 & 34.**

STANDING BRACKETS

This bracket may be attached to the handle of tools such as the 302 Groover or the 702 Edger, to allow for fitting to a 1076 or 588 handle. The tools can then be used in positions that are difficult to reach, or simply from a standing position. Tool not included.

FRESNO TROWELS

606 - The illustration shows the standard fitting which can be locked at the desired angle.
With this fitting the Fresno may also be used as a walking trowel by locking the fitting parallel to the blade.
Use with 588 and 1076 poles.

607-609-612 -This Fresno is fitted with a bracket and tilt mechanism as illustrated - used only in a push/pull operation. Use with 588 and 1076 poles, see page 33 & 34.

606

Bullfloats

The tilt of the blade is adjustable and controlled by twisting the handle. This enables the operator to change the tilt of the blade (continuously if required) to achieve the optimum finish to the concrete. If the blade lies flat on the slab it leaves a rough finish but will close and fill holes. When the blade is tilted on an angle a smoother finish will result. There is no need to raise or lower the handle, simply twist it for best results.

USE WITH	588, 1067, 1076 & MFLH40

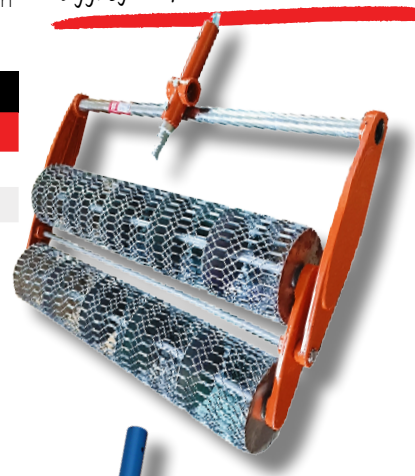
Mesh Roller

Diamond Patterned Safety Roller gives a rough, skid resistant finish to concrete ramps.
Perfect for wheelchair or loading walkways where a non-skid surface is a must. Roller is 5" in diameter and made of tough expanded steel diamond mesh. Handle bracket accepts threaded 1-3/4" bullfloat extension handles. Fits CC289SB, CC291SB and CC293SB Kraft poles, see page 15.

Mesh rollers are used to depress aggregate for ease of finish



Concrete Mesh Roller

Salt Roller Tamps

Make small decorative impressions in concrete using rock salt. The 30" long roller moves over the concrete forcing the rock salt into the concrete. The rock salt can be rinsed and worn away leaving just a speckled impression on the surface.

Excel Tools

Excel Vee Jointer

Sold in WA and SA only.

C1

C1A

Used to form 'dummy' joints in concrete paving. The joint in the concrete reduces the thickness of the paving. If cracking occurs, the crack should be at the line of the 'dummy' joint. The joint should be 1/5 of the slab thickness. Blades are formed from stainless steel.

C4

Excel Oblong Non-Skid Floor Float

Sold in WA and SA only.

SOLD IN WA AND SA ONLY - Used to 'rub up' a concrete floor prior to steel trowelling or to work in coloured dry shake. They produce a textured finish smoother than a wood float, which suits outdoor paving applications. The trowels feature a long-wearing robust steel blade that is turned up all round. Blades are formed from stainless steel.

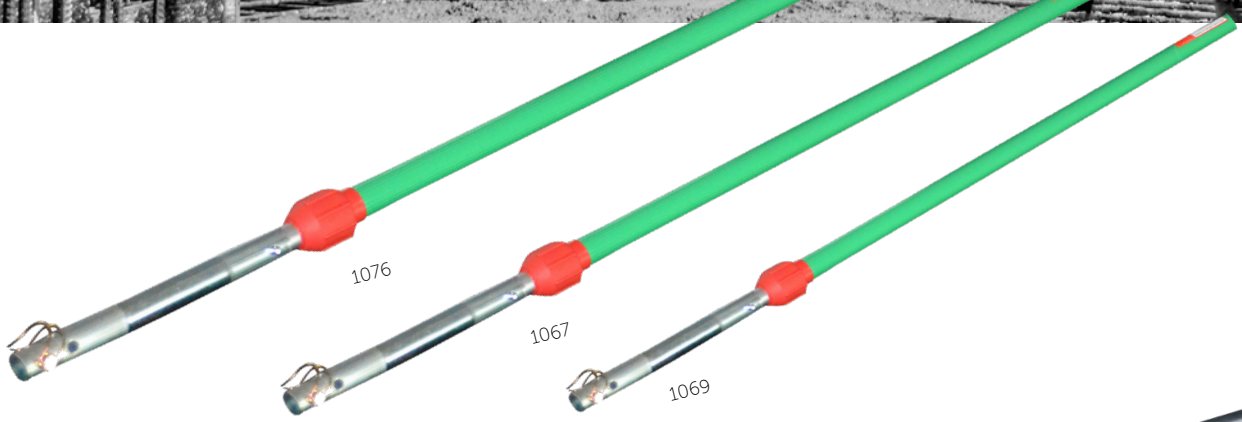
POLES & ACCESSORIES

MASTER FINISH by A.G.Pulie Pty Ltd



Widely used for many floating and finishing jobs, enabling the work to be achieved from a standing position, external from the concrete slab. The inside tube is grooved.

A pin penetrates this groove. This allows the twisting action the operator applies to the handle to be transferred to the floor. The handle length is locked by lightly twisting the collet nut.

The 1076 can extend from 2.75 to 5m and the 1067 can extend from 1.23m to 2.43m. The handle also features removable clip-on steel tube adaptor (part No. 1076E).

This allows the operator to unclip the handle from the tool for cleaning, storage or to fit to another tool.

Additional adaptor tubes (1076E) may be purchased.

HC178

KNEE PADS

MASTER FINISH by A.G.Pulie Pty Ltd

Offering the perfect combination of protection and comfort that other kneepads just can't match. They are so comfortable that they can be worn with shorts. The quick-fastening front-strap design and "clear zone" behind the knee eliminates rash or pinching that usually occurs from the inferior designs that use buckles, straps, or outdated fastening methods.

They are constructed of 100% washable premium grade SBR neoprene.

One of a kind knee-pad shape provides the ultimate in strength, comfort and adjustability.

Large enough to fit a professional contractor. Heavy duty closed cell foam cushion won't puncture or leak like gel pads.

- **Comfortable Design**
- **Professional Grade**
- **Single Front Fastening Strap**
- **Premium Grade Neoprene**
- **Non-Marring**
- **Washable**
- **Durable**

MF BUCKET PUMP

MASTER FINISH by A.G.Pulie Pty Ltd

MADE IN AUSTRALIA

CODE BU01

This high pressure sprayer is ideal for applying all chemicals including difficult non-dissolvable powders such as Bordeaux.

Made from heavy-duty brass, the BU01 is strong, durable and resists corrosion.
The pump uses a cast pressure air chamber and brass ball valves which provide a continuous flow of spray.
Adjustable foot rest is also fitted.

TECH SPECS

- 915mm x 13mm braided plastic hose
- 230mm director
- NZ6 - Adjustable nozzle
- 54mm air chamber

ROYAL CONDOR 7L HANDY INDUSTRIAL

CODE **HI-003**

RoyalCondor

The Royal Condor Handy Industrial 7 litre sprayer is a pre-pressure sprayer with Viton seals allowing for use with a broader range of chemicals.
Lightweight aluminium lance and a reinforced PVC hose provide durability and long life.
7 litre capacity tank with pressure relief valve.

TECH SPECS

- 7L tank capacity
- 1m PVC reinforced hose
- 15L/min maximum discharge
- 42cm aluminium lance

MADE WITH GENUINE VITON
DuPont Performance Elastomers
Viton® fluoroelastomer

MF INDUSTRIAL CONCRETE SPRAYER

CODE 308S

The Masterfinish 308S Industrial concrete sprayer is of heavy-duty construction and is fully serviceable by design. Backed by the reputation of Masterfinish and AG Pulie since 1951, we offer a range of genuine spare parts that you can depend on.

The 308S sprayer is fully equipped with high-quality VITON seals for long life and superior resistance to solvents and chemicals.

The 308S tank is manufactured from heavy-duty rolled steel and seam welded. Coated inside with high-performance epoxy as a barrier to corrosion and cross-contamination.

TECH SPECS

- 13.2L/3.5G Capacity tank
- Sprays up to 35% solids
- Hose length – 1.2m/48"
- Flow rate – 0.5g (1.8L) – 1.0g (3.7L)
- Operating pressure – 40-60psi
- 3-Stage locking handle
- Brass Spray handle, Wand and Nozzles

VIBRATING SHAFTS

MASTER FINISH by A.G.Pulie Pty Ltd

CODE MFVS

Flexible vibration shafts provide high frequency vibration from a low flex shaft speed.

The pendulum tip vibrator generates a high frequency vibration that drives out entrapped air to provide improved compaction, strength and finish of concrete. Made to endure the tough conditions of the work-site, the design and materials used in their manufacture ensures a high quality product.

They can effectively compact up to 25m3/H of concrete.
The flexible shaft is internally reinforced and strengthened with an integrated metallic mesh.
Available with steel tip and also resilient tip.

PUMPS

CODE KS212

Masterfinish flexible shaft-driven heavy-duty pumps are portable and can be used in a variety of applications. Available as standard premium heavy-duty pump or heavy-duty cast iron model - both with stainless steel impeller for improved abrasion resistance.

Self-priming, choke resistant spindle and oil bath lubrication.

Fitted with a quick action flexshaft coupling with a 3-tooth drive dog enabling them to be operated by all standard drive units. Fitted with an adaptor for cam-lock quick action hose fittings. Comes fitted with an anti-kink device; you can move the coil on the shaft to where the pump needs to go over an edge etc. to help prevent the flexible shaft from kinking.

FLOOR GRINDER

MASTER FINISH by A.G.Pulie Pty Ltd

The Masterfinish Floor Grinder has a robust steel construction and is powered by a 2hp single phase electric motor. Fitted with a 25 metre electric cable and lifting bar. A vacuum hose can be connected to the machine for dust extraction. Fabric dust shield included as standard. Ease of control achieved by using the finger-light wheel height adjustment. Can be fitted with a variety of abrasive segments to suit most applications.

Minimal maintenance required
2 grease points only.
12 month machine warranty.
Grinding stones not included.

VIBRATING SCREED

Easymix

The Easymix vibrating screeds are powered by the Honda GX35 mini 4-stroke engine. Available with beams ranging from 1.5 to 4 metres. Vibrating Screeds are made with multi-point adjustable acceleration and a transmission system with centrifugal clutch. The screed bar and frame are manually separated for ease of transport whilst the handles fold down for increased storage space.

The motor is raised from ground level to avoid damage and excessive amounts of concrete and dirt damaging the motor whilst the semi-rigid transmission absorbs horizontal and vertical oscillations.

TWIN BEAM SCREED

MASTER FINISH by A.G.Pulie Pty Ltd

POWERED by HONDA

3 YEAR COMMERCIAL ENGINE WARRANTY FOR AUSTRALIA ONLY

GX Engine 3 YEAR WARRANTY

YANMAR

Applications include roadways, airport aprons, slipways, spillways, tilt panels and warehouse floors. The heavy-duty maintenance-free vibration unit coupled with the powerful GX200 Honda 4-stroke allows you to vibrate and screed large slabs with one pass.

The vibrating screed is controlled by both the vibration propelling the machine forward and the two guide ropes on either end to keep the screed straight. Comes equipped with soft grip handles on either end for lifting and moving around site. Large one-piece motor and exciter cradle for better vibration transfer to the beams. High quality exciter. Australian made to last longer in the toughest of environments.

Available in a **Diesel** option using a **Yanmar L48N 4.7hp motor.** ***Lengths made to order.***

LENGTH **6.5m** maximum length

6-month machine warranty

PLATE COMPACTORS

MASTER FINISH by A.G.Pulie Pty Ltd

CODE 490HW

490HW Plate Compactor

The Easymix 490H plate compactor has a solid, high-strength steel base plate with curved edges to provide top performance. The robustly designed sealed belt cover gives great protection to both the clutch and belt. Fitted with anti-vibration removable flip-over handles for easy transportation and wheels for ease of movement around site. Comes standard with sprayer bottle.

The exciter uses 200ml of 10W-30 motor oil.
12 months machine warranty and 36 months Honda motor warranty, Australia only.

TAMPING RAMMER

MASTER FINISH by A.G.Pulie Pty Ltd

CODE ER68H

The Easymix Tamping Rammers are driven by 4-stroke petrol engines designed specially for rammers. No need to mix fuel and oil. Fitted with a heavy-duty gearbox, plastic rust-free oil tank and built-in air filtration system to provide a durable machine with a longer running life.

An integrated fuel valve provides easy starting. The heavy shock mount system reduces hand-arm vibration and improves operator comfort. Also available is a specially designed trolley kit for easy transportation. The Rammer shoe is made of a steel plate with a wooden insert that offers economical usage.
A high quality German-made polyurethane bellow, accepts more compacting force and offers a reliable lubricating system.

Slab Edge Rebate Form Bracket manufactured to make the task of forming the 150mm brick rebate on house floor slabs with ease. The bracket is adjustable to suit 35mm to 50mm timber (pre-set at 35mm).

RFB-50
Slab Edge Fixed Rebate Form Bracket manufactured to make the task of forming the 150mm brickwork rebate on house floor slabs with ease.

RFBA8-24
Slab Edge Adjustable Rebate Form Bracket manufactured to make the task of forming brickwork rebates on house floor slabs with ease. Adjusts between a 110mm, 150mm and a 200mm rebate.

KGB
Kerb Bow formed from 30mm X 10mm steel bar and shaped to form up 150mm splayed kerb using 50mm thick timber.

KGP-2
Kerb Plate cut to shape from steel plate to form 150mm kerb and used in conjunction with kerb bow. If 150mm straight kerb is required, the plate can be placed to form it.

MFBB
Used to bend single lengths of rebar quickly and easily. Made from high strength steel and zinc plated for protection. 12mm maximum bar diameter

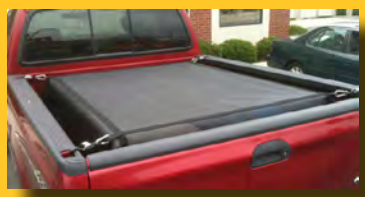
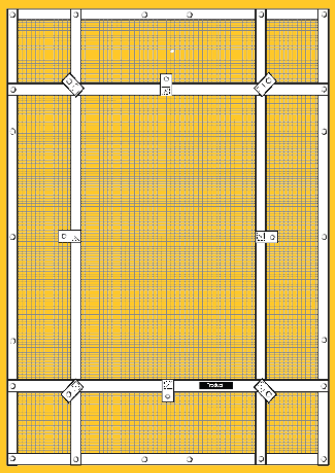
Small Gladiator Mesh Net - SMT-300

The most cost effective net in the range. Has complete mesh coverage to secure small items safely. Perfect for covering garden materials or rubbish in a small trailer or ute.

Size	Min Tray Size	Mesh Coverage	Dimensions	Eyelets	Straps	Stock Code	Box Qty	Weight
Small	1.03 x 0.64m	1.80 x 1.40m	1.80 x 1.40m	26	4	SMT-300	8	3.9kg



AS/NZS 4380

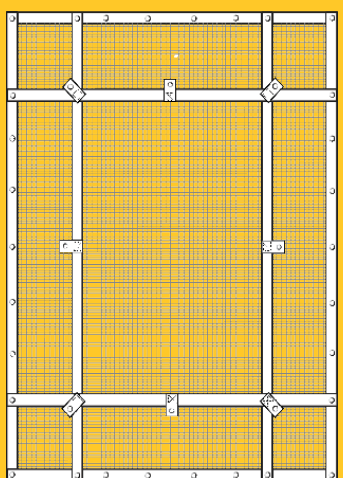


Medium Gladiator Mesh Net - MMT-300

Securing the camping gear in the rear of your dual cab or box trailer is made easy with the MMT net. Light weight and easy to use, making your loads safe.

Size	Min Tray Size	Mesh Coverage	Dimensions	Eyelets	Straps	Stock Code	Box Qty	Weight
Medium	1.60 x 1.25m	2.46 x 2.05m	2.46 x 2.05m	30	4	MMT-300	6	5kg

AS/NZS 4380

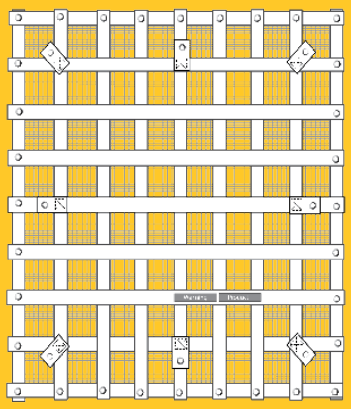


Large Gladiator Mesh Net - LMT-300

The LMT is for large trailers and tray back utes, perfect for covering boxes and light loads. With the full mesh coverage, even that load of mulch can be secured.

Size	Min Tray Size	Mesh Coverage	Dimensions	Eyelets	Straps	Stock Code	Box Qty	Weight
Large	2.20 x 1.80m	3.00 x 2.61m	3.00 x 2.61m	36	4	LMT-300	4	6.5kg

AS/NZS 4380

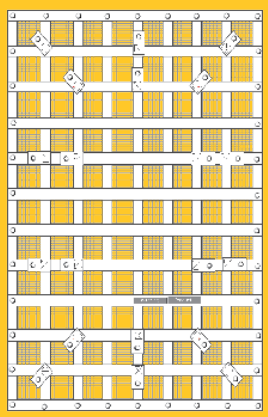


Small Gladiator Roof Net - SRN-300

The car is stacked with the kids and the dog and the roof is loaded, the SRN will safely secure your load to your roof cage to ensure all your gear gets there safely with you.

Size	Min Tray Size	Mesh Coverage	Dimensions	Eyelets	Straps	Stock Code	Box Qty	Weight
Small	0.80 x 0.80m	1.58 x 1.58m	8 x 1.58m	40	4	SRN-300	N/A	4.75kg

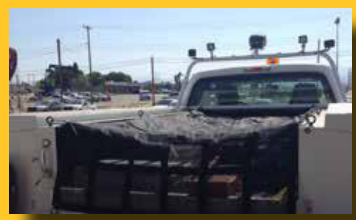
- Patent No. 2012236912



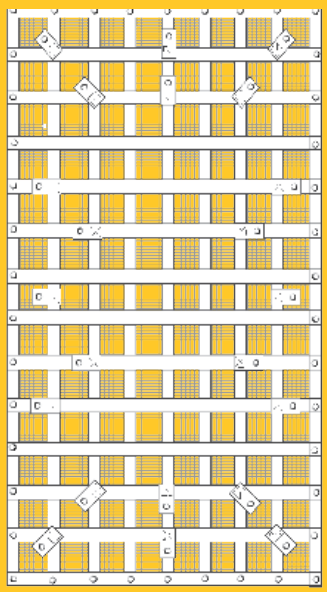
Medium Gladiator Roof Net - MRN-300

The MRN is not only designed for larger 4WD roof cages, it can also be used to secure larger loads on utes and trailers where the 1000kg SWL and full mesh coverage is required.

Size	Min Tray Size	Mesh Coverage	Dimensions	Eyelets	Straps	Stock Code	Box Qty	Weight
Medium	1.40 x 0.80m	2.18m x 1.58m	2.18 x 1.58m	58	4	MRN-300	6	5.7kg



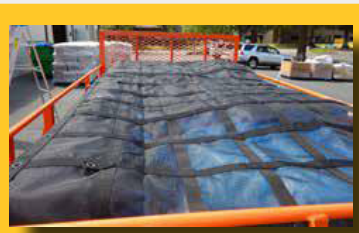
- Patent No. 2012236912



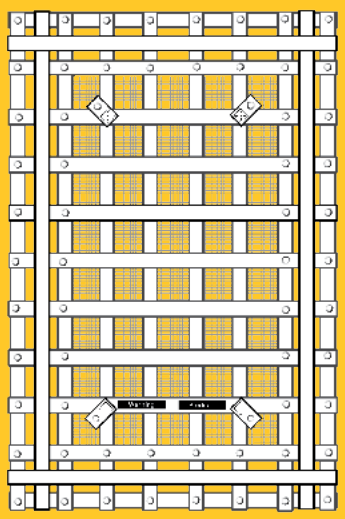
Large Gladiator Roof Net - LRN-300

The LRN can be used to keep your rods and tackle in your boat whilst securing it to the trailer or securing loads in large trailers and tray back utes. It has also been used to secure loads in the aviation industry.

Size	Min Tray Size	Mesh Coverage	Dimensions	Eyelets	Straps	Stock Code	Box Qty	Weight
Large	1.80 x 0.80m	2.58 x 1.58m	2.58 x 1.58m	64	6	LRN-300	4	7.5kg



- Patent No. 2012236912



Small Gladiator Cargo Net - SGN-300

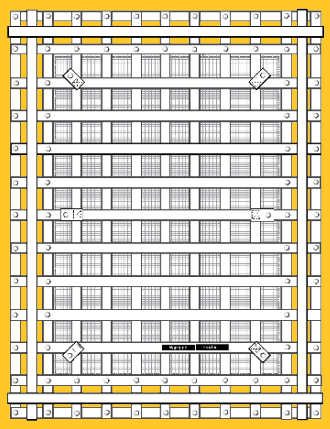
Used for securing small loads in trailers, utes and cars. Perfect for securing loads in the back of station wagons and 4WDs.

GLADIATOR CARGO NETS

SWL 1000KG

Size	Minimum Tray Size	Mesh Coverage	Dimensions	Eyelets	Straps	Stock Code	Box Qty	Weight
Small	1.03 x 0.64m	1.43 x 1.04m	1.80 x 1.40m	46	4	SGN-300	8	4.6kg

Patent No. 2012236912
AS/NZS 4380



Medium Gladiator Cargo Net - MGN-300

The medium net was designed with small tray back utes and trailers up to 1.8m in mind. The smaller net makes securing loads on your own easier.

WATERPROOF
CARGO NETS

SGW-100

MGW-100

LGW-100

Introducing the new Heavy-Duty Waterproof Gladiator Cargo Net!

Featuring all the same ruggedness you expect from our classic Gladiator Net! Made with heavy-duty 18 gauge vinyl, this net will lock down your cargo and keep it safe from the elements- and of course safely secured.

The Waterproof Cargo Net is built from UV treated, weatherproofed, heavy-duty 1.5" webbing with triple-layered reinforced edges atop 18 gauge vinyl. Additionally, multiple grommet attachment points around the perimeter allow for:

- Larger sizes to be naturally made smaller
- Tighter angles for odd loads
- Secures at multiple points

Code	Mesh Coverage	Weight	Barcode
SGW-100	1.8m x 1.4m	4.6kg	9318428112672
MGW-100	2.4m x 2m	6.4kg	9318428112498
LGW-100	3m x 2.6m	8.6kg	9318428112689

Every cargo net comes with four **hardware straps** and a **heavy duty storage bag**. The hardware hooks are rubber coated to protect your vehicle. 1.5" inch thick straps which extend from 9" in - 3' ft.

INCLUDED 4x Straps & HD Storage Bag

NARROW TRAY CARGO NETS

GLADIATOR TRAY NETS

Made to fit cargo storage trays on service trucks and the vacant space on ute trays with tool boxes. The Tray net comes in three different lengths. Made from the same superior quality materials as the classic Gladiator cargo nets, with edge to edge mesh design.
